

Centerless Grinders - MK Series

The FANUC high performance CNC control has been developed exclusively for the grinding industry. The featured control gives the machine the versatility and speed demanded to accomplish the grinding needs of the future. With the marriage of the FANUC control and the ECOTECH GRINDER, we have developed a state-of-the-art Centerless single axis CNC Grinder with the simplicity of programming today's most complex parts. This machine has been design with the capability to grind and monitor the part size and will compensate for wheel wear with the CNC. . The centerless CNC grinders come standard with CNC wheel dresser on the grinding wheels.

Series	Max O.D.	Infeed Part Length	Wheel Size (DxWxD)	Wheelhead Hp.	Machine Weight
MK1020	1.00	3.15	12x4x5 inch	5.4 hp	4,410 lbs
MK1050	2.00	4.80	16x6x8 inch	14.75 hp	6,167 lbs
MK1080	3.00	5.70	20x6x12 inch	20 hp	11,030 lbs
MK10100	4.00	7.67	20x8x12 inch	30 hp	15,500 lbs
MK10200	8.00	11.4	24x12x12 inch	40 hp	22,046 lbs
